

BEFORE YOU GET STARTED

1

Insert chair wheels into the chair base.

4

Align the mechanism; screw back the four screws into the underside of the seatbase.

2

Remove the red protective cover from the gas lift. Insert the gas lift and its cover into the center of the base.

5

Remove the pre-assembled bolts by using the M8 allen key. Align the backrest into the brackets.

3

Remove the four screws from the bottom of the seat cushion.

6

1. Screw the round screws into the holes of the side covers.
2. Attach the hinge covers onto to the brackets together with the screws.
3. Insert the rubber plugs once the hinge covers are attached.
4. Insert top of the gas lift into the mounting hole on the control unit, then place the chair upright.

PACKAGE CONTENTS

USAGE INFORMATION

BACKREST RECLINE

Pull up the lever fully and lean back slowly until the backrest is at your desired angle, then slowly return the lever to its starting position. Ensure the lever locks back in place.

4D ARMRESTS

1. Press the button and adjust the height accordingly.
2. Press and hold the front button to move them forward, back or angled sideways.
3. Press the inner side button to move sideways.

MULTI-TILT MECHANISM

Right lever (while seated): Pull the right lever up and down to adjust the height of the chair.
Left lever (while seated): Push down the left lever to lock the tilt mechanism and the seat base at your desired angle. Pull up to unlock.

SAFETY INFORMATION

The recommended weight load is:
